MEMORANDUM FOR: [REDACTED]

Chief of Operations
Office of the Deputy Director (Plans)

SUBJECT:

1 TSS Demonstration - Briefing for Bureau of the
Budget Officials.

Dick:

As I believe you know, Bob Macy and Harry Wilhelm of the Bureau of the Budget attended the TSS photographic demonstration last week. Bob telephoned later to express his appreciation for having been invited. He said, however, that based upon responses to his questions he had some feeling that there was considerable room for improvement in the relations between the TSS people here who developed the equipment and those in the field who actually used it. He also said that Hart Perry and Harry Wilhelm were planning a trip to Europe in June and that before they went he would appreciate it if we would give them a briefing and permit them to take a look at one of our bigger stations, such as [REDACTED] where TSS equipment is in use. I said him that we would be very glad to comply with his requests.
